FEMA defines Goals as general guidelines that explain what should be achieved and defines Objectives as strategies or implementation steps to attain mitigation goals, and mitigation actions as specific actions that help to achieve the mitigation goals and objectives. This plan combines goals, objectives, and actions to provide direction for Androscoggin County and all jurisdictions to reduce risks from identified hazards and improve resilience. All 14 jurisdictions participated; each action/project submitted for inclusion in this plan contributes to the county-wide mitigation strategy. The local mitigation actions/projects paint a picture, illustrating what each community prioritizes and their commitment to hazard mitigation and resilience.

By adopting this plan, each community is agreeing to continue implementation of strategies aimed at mitigating hazards identified in this Plan. Participating jurisdictions will apply the Androscoggin County Natural Hazard Mitigation Plan – Resolution of Adoption template to that jurisdictions letterhead and submit a completed copy for inclusion to this Plan. The Resolution of Adoption template to completed by each participating jurisdiction is shown on the following page.
